

"The Perfect Blend"

Mixing a Quart

2 tsp. Spray-N-Grow

1 tsp. Bill's Perfect Fertilizer

1/8 tsp. Coco-Wet

1 qt. Lukewarm water (80° - 100° F)

Quart sprayer

Mixing a Gallon

2 Tbsp. Spray-N-Grow

1 Tbsp. Bill's Perfect Fertilizer

1/2 tsp. Coco-Wet

1 Gallon Lukewarm water (80° - 100° F)

Garden sprayer (1 gallon capacity or more)*

Mixing Instructions: Pour warm water into garden sprayer. First add Coco-Wet, then Spray-N-Grow to water. Allow mixture to sit for 15 minutes. As the water sits you will notice that the color changes slightly from clear to an amber or dark yellow color. This color change indicates that Spray-N-Grow has activated. Add Bill's Perfect Fertilizer. Stir.

Serving Instructions: Use the entire solution within 6 hours. Spray "The Perfect Blend" on all your plants. Use any left-over solution to water plants.

*Do not use a hose-end sprayer to apply "The Perfect Blend"
